- ✓ With origin from China: including escalators, moving sidewalks, elevators with load from 450 kg to 5,000 kg, speed from 0.5 m/sec to 4.0 m/sec are very suitable for apartment, office, hospital, commercial center, supermarket, hotel projects that need to have beautiful furniture, diverse capacity, flexible hoist-way design, fast delivery schedule.

In order to reach customers in other provinces and cities and offer practical solutions and convenient services to them, Hitachi Elevator Vietnam has been implementing the "Listening - Understanding - Sharing - Successful cooperation" program in localities across the country.

On July 1, 2020, Hai Phong Architectural Association and Hitachi Elevator Vietnam co-organized the "Hai Phong Architects – Enterprises and Hitachi Elevator Vietnam Co., Ltd." Exchange Conference at Bao Tin event venue – No. 48 Tran Khanh Du street, Hai Phong city. The program had attendances of the leadership of Hai Phong Architectural Association, Hai Phong Young Architects Club, representatives of Hitachi Elevator Vietnam with architects, engineers, contractors and owners, investors and business people in Hai Phong. The conference successfully concluded and brought extremely valuable and meaningful opportunity for people who are working on the design, construction, installation, development and use of elevators. (Please refer to [the article of Architect Nguyen Minh Tri - Vice Chairman of Hai Phong Architectural Association posted on the Association's website.](#))

Sincere thanks to Hai Phong Architectural Association, especially Architect Vo Quoc Thai - Chairman, Architect Nguyen Minh Tri - Vice Chairman of Hai Phong Architectural Association, and all of our partners including architects, enterprises and investor of Hai Phong City created a warm and sincere exchange meeting, recognizing many valuable lessons from real problems in the locality.

Hitachi Elevator Vietnam is always ready to receive inquiries and offer solutions to architects, contractors and investors from all regions of the country. We will contribute to a sustainable society through providing new value for "people, building systems, and society", and we appreciate your continued interest and cooperation.
